Surgical Information:

Dear Client,

Your pet has been scheduled for an upcoming surgery in the near future. In our attempt to assist you we have put together some tips to make surgery day easy and stress-free.

Bring the Pre-surgical form in with you and have it filled out.

Make sure we have a current, correct phone number at which we can reach you should the doctor need to speak with you. Failure to give us a current and correct number may result in postponement of surgery or in an emergency may have catastrophic results if we cannot reach you.

We are glad to give you an estimate for the surgery, just ask us!

Don't forget! No food after 6:00 p.m. and no water after midnight the night before your pet's surgery. Bunnies do not need to fast.

You are welcome to check on your pet's status, however, we request that you allow plenty of time for your pet's surgery to be completed.

At time of discharge, the receptionist and technicians will bill you out and go over all the restrictions and medications that your pet will need to recover completely and quickly. Please, if you have any questions feel free to ask!

Thank you for allowing us to care for your pet, we look forward to taking care of them for many years to come.
